HEADQUARTERS 139<sup>TH</sup> AIRLIFT WING  
705 MEMORIAL DRIVE, ST. JOSEPH, MISSOURI 64503-9307

7 August 2018

MEMORANDUM FOR ROSECRANS ANG BASE PERSONNEL

FROM: 139AW/CC

SUBJECT: Environmental Commitment Statement

1. The mission of the 139th Air Wing (AW) is to provide trained aircrews, personnel, equipment, and C-130 aircraft in support of U.S. Air Force requirements world-wide. Activities at the 139th AW include operating and maintaining C-130 aircraft, corrosion control, aerospace ground equipment, vehicle maintenance, facilities maintenance, and administrative support. Rosecrans Air National Guard Base is committed to conducting its mission in an environmentally responsible manner that will protect human health, natural resources, and the environment. In doing so, we will comply with all environmental laws and regulations and other requirements applicable to the conduct of our mission and strive for continual improvement in our environmental performance to include Environmental Protection Agency (EPA), Missouri Department of Natural Resources (MODNR), Air Force and Buchanan County requirements. This commitment goes beyond compliance with the law and encompasses the integration of sound environmental practices into our daily decisions and activities. We have in the past, and will continue in the future, to pursue a course of responsible environmental stewardship. This Environmental Commitment Statement supplements AFD 90-8. In support of our environmental commitment, we will:

- a. Maintain an effective Environmental Management System (EMS), promote the use of safe technologies and operating practices, and remain ready to respond to emergencies in order to improve our environmental performance and minimize adverse impacts to installation workers, their families, and the environment.
- b. Set environmental goals, measure progress, take corrective action when necessary.
- c. Working in partnership with all stakeholders, investigate and evaluate new and innovative technologies and practices as appropriate, establish and implement an effective pollution prevention program, minimize the generation of wastes, recycle materials otherwise destined to become waste when possible, and dispose of any remaining wastes in an environmentally responsible manner.
- d. Ensure the responsible use of energy throughout the installation, including the adoption of innovative practices and procedures that will conserve energy and improve energy efficiency.
- e. Promote the conservation and sustainable use of natural and manmade materials.

f. Provide regular operation-specific environmental performance reviews and assessments, develop plans to address actual or potential noncompliance situations, and build environmental concerns into all policies, programs, and missions.

2. Compliance with this Environmental Commitment Statement is the responsibility of everyone supporting this Wing including military, state, and civilian employees, contractors, and vendors in accordance with his or her role and responsibilities in the organization. This commitment statement will be communicated to the public through posting on the Wing's public website.

3. The Office of Primary Responsibility (OPR) for this commitment statement is the 139th Environmental Management Office (EMO) at (816) 236-3559.

JOHN A. CLUCK, Colonel, ANG  
Commander
